Netiquettes

School policies

Netiquette (net + etiquette) is the “code of conduct” applied to online spaces. Teaching students about netiquette is just as important as teaching them to use technology or master content. Much like traditional etiquette, which provides rules of conduct in social situations, the purpose of netiquette is to help construct and maintain a pleasant, comfortable, and efficient environment for online communication, as well as to avoid placing strain on the system and generating conflict among users.
