Personalized learning Platform

Fun, Interactive & Engaging

Improves Visualization

Safe & Secure Learning Experience

Competency-based learning

Replay, Refresh & Relearn Anytime

Ongoing and progressive approach
in assessments

Sharpened Digital Skills

Dear Parents,

Greetings!!!

Hope you, your family and our students are safe.

As a school, this period is really challenging and believe us it is not easy confronting the endless questions from our learners, parents, guardians and new inquiries. Though it is challenging to address some queries, we are however managing it all with a smile.

This is to bring to your kind notice that the school admin team has started operating from 22nd May 2020 and the school management has taken all precautionary measures considering the health and safety of the workforce at school. You can visit the office between **9 am to 3 pm** for admission inquiry or confirmation.* On visit you will be permitted only after the Covid-19 precautionary- Security check. Remember to carry your mask / essentials and note that children are strictly not allowed. Online assessment will be conducted and the admission will be confirmed accordingly.

Furthermore, please understand that the school authorities especially our teachers love their learners and are working relentlessly to make the virtual classrooms interesting and engaging.

Our teachers are all set to start their online sessions but all we need is your support as TEACHING & LEARNING is effective when the parent - teacher - student bond gets intact. As a school management, we would like you to know Virtual classes are not only new to parents / learners but to our teachers too. Our teachers are working hard on their teaching methods / styles and working towards creating a hub of learning where learning never stops.

We request you to cooperate and encourage your child to attend these classes and not use discouraging words as that will hinder the learning sessions. Let's together create a beautiful environment for our learners / children to comprehend and discover new platforms towards learning. Let us all stay safe, healthy and united to fight against all odds. Nothing can stop us if we are determined.

Thanking you in anticipation,

Warm Regards,

FEI Management.
